## OBJECTIVE

Aspiring MCA graduate and passionate web developer with expertise in React.js, Firebase, and modern web technologies. Seeking opportunities to enhance my technical and creative skills while contributing to innovative projects.

## PROFESSIONAL EXPERIENCE

### Freelancing Front-End Developer

Nextriad Sollutions 🔗

08/2024 – present | Coimbatore, India

- Designed and developed front-end interfaces for desktop and web applications using React.js and Electron.js.
- Successfully implemented projects such as a **Crackers Shop Management System** and **Tube Work Management Software**, focusing on responsive design and seamless user interaction.
- Optimized software for performance, scalability, and cross-platform compatibility.
- Collaborated with stakeholders to gather requirements, refine features, and deliver high-quality solutions within deadlines.

### Freelancing Front-End Developer

Slice Carving Technologies 🔗

05/2024 – 07/2024 | Srivilliputtur, India

- Collaborated with clients to design and implement user-friendly front-end solutions for web projects.
- Developed responsive and interactive web pages using HTML, CSS, JavaScript, and Tailwind CSS.
- Delivered multiple projects, including a **Matrimony site**, **Influencer Profile Management system**, and a **dashboard application**, focusing on functionality and seamless user experience.
- Worked closely with project stakeholders to gather requirements, ensure timely delivery, and meet high-quality standards.

## PROJECTS

### Photography Management System 🔗

Mobile Appllication - UG Project

2024

The Photography Mobile Application, built with React Native and Firebase, streamlines event bookings, customer reviews, and data synchronization while offering a gallery, personalized services, and studio contact details for photography business owners.

### Music Artist Portfolio With Control Panel 🔗

Website - Personal Project

The Music Portfolio Website, developed using Next.js and Firebase, showcases a collection of cover songs and original tracks. It allows users to stream or download music, view detailed song information, and access exclusive content while providing an admin panel for managing uploads and updates seamlessly.

### Developer Portfolio with Control Panel 🔗

Website - Personal Portfolio

This project is a personal portfolio website designed to showcase my development skills, completed projects, and professional journey. Built using React.js for the front end and Firebase for the backend, the website serves as a dynamic and interactive platform to highlight my expertise in web development.

## DECLARATION
